

# It's Your Turn IN THE HOT SEAT

Immerse yourself in an intimate environment and learn as a collective.

It's Your Turn in The Hot Seat in a boardroom style program designed for Business Owners, CEO's and GM's, running each alternate month over 12 months.

**The program is designed for a maximum of 6 participants to foster connection and collaboration in a room of trusted peers, where you bring your deepest challenges to the table in a safe environment for discussion and solution.**

The program has been developed based on the many conversations I have with my clients and the business community. Many of the questions or problems I am asked to resolve have similar themes across many categories and industries.

My solution is to create a small group who get together to discuss topics that they are unsure how to handle or may want some clarification on.

It's your forum to be open and honest with yourself. Participants will take it in turn to be in the hot seat and table their challenge they wish to resolve.

- Issues that you are afraid to take the lid off;
- Challenges and scenarios that you felt you could have handled better;
- Giving you straight answers to the questions that you can never get clear on;
- Strip away self-doubt and create the skills and strategies to deal with any challenge.

**The first program will launch in May – and we'd love you to be a part of it!**

## **About Your Host – Maureen Kyne**

Maureen is a seasoned investigator of bullying, discrimination and sexual harassment claims; real world experience which underpins the highly effective bullying prevention programs she delivers across multiple sectors in metropolitan and regional Australia.

With extensive experience driving behavioural and cultural change, Maureen's focus is ensuring your most important asset – your 'people' – don't end up at the wrong place at the wrong time. Including Jail.

Her leadership training helps senior managers have success with their teams to surpass their goals to assist them to develop a better self-awareness for the impact of their behaviour on themselves, others and that of the organisation.

Maureen Kyne & Associates range of services include confidant, business risk mitigation, consulting, bullying advisory, training and crisis intervention.
